Mr. Tom Old
Mr. Troy Pearse
Boise Valley Fly Fishers
PO Box 311
Boise, ID 83701

Dear Mr. Old & Mr. Pearse,

Congratulations to the Boise Valley Fly Fishers on receiving a conservation grant to assist with the Boise River Side Channel Gravel Augmentation project. We appreciate the work your club is doing to restore the spawning gravel in the Boise river system.

You indicated in the application that the project would be completed in the winter of 2020/2021. We would appreciate a final report by April 1, 2021 with information about the project with photos, if possible. Please e-mail the information to our Conservation Coordinator, Rhonda Sellers, at conservation@flyfishersinternational.org.

We wish you the greatest success in your project.

Highest Regards,

A handwritten signature in blue ink, appearing to read "Patrick Berry".
